TECHNICAL SKILLS AND INTERESTS

Languages: Java (OOP, DSA), Python, JavaScript, HTML, CSS

Frameworks & Libraries: Django, FastAPI, Streamlit, Uvicorn

Databases & Tools: PyCharm, Jupyter Notebook, Visual Studio Code, Intel IDEA

Development Platforms: PyCharm, IntelliJ IDEA, Visual Studio Code, Jupyter Notebook

Softskills : Communication, Problem Solving, Teamwork & Collaboration, Adaptability

INTERNSHIPS

Solar Secure Solutions

5/16/2023 - 7/16/2023

Intern

Bengaluru, India

- Designed and developed a fully functional e-commerce platform, utilising front-end technologies (HTML, CSS) and MySQL for back-end database management, creating a visually appealing and user-friendly site.
- Implemented server-side logic and database management to ensure the site's robustness and scalability, focusing on performance optimisation and user experience.
- Improved debugging and problem-solving skills through iterative testing, resulting in an efficient e-commerce solution.

TECHNICAL PROJECTS

RideFlex-Car Rental Hub

- Developed a peer-to-peer car rental platform with secure booking, payment, and user profile management
- Built the application using Python, Django, PHP, and HTML with a focus on usability and security
- Implemented search functionality, user reviews, and an admin management system to ensure seamless rental operations

UPI Fraud Detection

- Built a machine learning-based system to detect fraudulent UPI transactions by analyzing transaction behavior patterns
- Used Python with Hidden Markov Models (HMM) and Convolutional Neural Networks (CNN) to identify and flag suspicious activity
- Developed a RESTful API using FastAPI and integrated MySQL to handle transactional data with CRUD operations and authentication.

Cardiovascular Health Risk Detection

- Built a supervised machine learning tool in Python to predict heart disease risk using structured medical data
- Performed data cleaning, feature engineering, and model training using logistic regression, decision trees, and random forests
- Visualized insights and model behavior using Pandas, NumPy, Matplotlib, and Plotly, with focus on real-world clinical decision support

EDUCATION

Geethanjali College of Engineering and Technology

Computer Science and Engineering

2021-2025

CGPA:7.5

CERTIFICATIONS

Hands-On Big Data Processing with Hadoop 3 | Infosys Springboard **November 2024**

Gained proficiency in big data processing using Hadoop 3, focusing on data management, processing techniques, and hands-on implementation of Hadoop tools.

Java Full Stack | TalentNext (Wipro) **October 2024**

Completed the comprehensive Java Full Stack course, gaining proficiency in core Java, application development, and essential frameworks.

Java Programming | Oracle Academy **August 2023**

Built strong Java programming foundations, covering syntax, OOP concepts, and essential structures, with enhanced skills in writing, testing, and debugging applications.

ACHIEVEMENTS

Ranked 245th globally for asteroid analysis, awarded Certificate of Achievement by IASC, powered by NASA.

Awarded Certificate of Excellence as Best Student of the Hackathon by Supraja Technologies.
